MINIATURE ROSES

SEQUOIA NURSERY

2519 E. Mineral King, Visalia, Calif.

MINIATURE ROSES now come in a full range of delightful colors. They make wonderful gifts which may be used for many special occasions.

Miniatures are among the first roses to bloom in the spring and the last to flower in the fall. Plants are very hardy and once established will grow and bloom for many years. We have plants growing in containers which are over twenty years old!

INDOORS by a sunny window or in a small greenhouse plants of miniature roses may be flowered nearly all year.

OUTDOORS miniatures may be used for borders, low hedges, in groups for spots of color or as potted plants. Climbing forms may be trained on small trellises or against low fences.

Miniatures are easily grown in little space. Plenty of sunshine, ample moisture and a little fertilizer are about all they require.

INSTRUCTIONS for planting and care will be sent with each order.
